

OHIO WINTER TRAINING GUIDE 2024-2025

TRAINING

SMALL GROUP, PRIVATE, CAMPS

INDIVIDUAL TRAINING & CAMPS

WWW.SOCCERMOMSANDDADS.COM

Welcome to the Ohio Soccer Moms and Dads 2024/2025 Winter Training Guide!

This year's guide is our biggest and most comprehensive yet, featuring a wide range of training opportunities, including individual sessions, recurring small group training, pick-up games, and 5v5 leagues. These options are designed to help your child develop the essential skills they need to thrive in competitive soccer.

One of the most common frustrations we hear from parents, particularly those who played soccer themselves, is: "They aren't teaching them the basics." And you're absolutely right—many team coaches focus on tactics and team dynamics, often assuming players already have a strong foundation in basic skills like ball striking, dribbling, and receiving passes. However, most young players aren't learning these skills during team practices. Instead, they pick them up through extra efforts outside of team settings—whether it's backyard play, pick-up games, or supplemental training.

That's where this guide comes in. Supplemental training is critical for several reasons. First, it allows **individual skill development**, giving players the focused time to sharpen key technical abilities like shooting, passing, and dribbling—skills that don't always get the attention they need in regular team practice. Second, these sessions provide a platform for **improved fitness**, as players can work on strength, agility, and endurance, which help them perform better on the field. Third, with **personalized focus**, players can target their weaknesses, honing specific areas like ball control, decision-making, and positioning.

Beyond technical improvements, supplemental training plays a vital role in **building confidence**. Players who invest in extra training see visible results, boosting their self-assurance on the field. This increased confidence often leads to better performance during games and team practice. Finally, in a highly competitive sport like soccer, supplemental training gives players a **competitive edge**, helping them develop faster than their peers and stand out in game situations or tryouts.

Whether your child is new to soccer or has been playing for years, this year's Winter Training Guide offers opportunities for growth and skill development at every level. Let's make this winter season a stepping stone to better performance, stronger confidence, and a competitive advantage!

November-December 2024

The Dayton Players Academy Personal Training Program is designed for players regardless of club affiliation who are interested in taking their game to the next level. Individual, personal, and small group training sessions are offered. All trainers are professionals who will challenge players to meet their individual goals.

Are you a top-level player who wants to keep improving their game outside of team practice? Do you have goals of making the ODP State, Regional, or National team? Are you a high school age player looking to make the Varsity in the fall? Are you a recreational level player with a goal of making a select soccer team at tryouts in May? Are you on a lower level team in your club and want to move up a team?

US Club Soccer

Leagues with competition in Ohio

Elite Clubs National League (ECNL)

The ECNL represents the epitome of excellence in youth soccer, for boys and girls, as the league and its clubs, players, coaches, and everyone involved seeks to constantly "Raise the Game" for the future.

Regional Leagues (ECNL-RL, Pre-ECNL, NPL & MDL)

Club based or team based regional leagues provide clubs and player with quality regional competition, increased exposure and limited travel requirements. Aligning with the US Club Soccer's Player First Philosophy via collaboration.

Competitive Leagues (ORL, COPL, OSPL, CASA)

These leagues include quality, local competition without significant travel. League development and decisions are made at the local level based on the best interest of the individual league and participating clubs

Community Leagues (OCL, EPL, OHTSL)

Foundational programs which benefit from easy registration and the flexibility of US Club Soccer Membership. These leagues are made possible thanks to the US Club Soccer philosophy of eliminating red tape and over regulation.

Players First is a philosophy that guides US Club Soccer, its leadership, and member clubs and leagues to establish the optimal environment for player development and member experiences.

Players First was founded on the following five pillars:

Player Development

Coaching Development

Parent Engagement

Club Development

Player Health & Safety
